

THE TECH

VOL. XXXI. NO. 82

BOSTON, MASS., TUESDAY, JANUARY 9, 1912

PRICE TWO CENTS

MUSIC COMPETITION FOR SHOW OPENS SATURDAY

All Competitors Should Call For Lyrics at Show Office.

Competition for the music for "Castles in Spain"—Tech Show, 1912—will open next Saturday. At 1.30 on that day sheets containing the list of lyrics for the Show will be distributed to all who will call then at the office to get them. It is hoped that the many music writers in the Institute will be present and in this way get a start which will enable them to complete their contributions before the second term opens.

For the first time since "Over the Garden Wall" was produced in 1908, the entire list of lyrics has been written by the authors. Before that time it had always been the custom to have the lyrics written in this way. Since that time this phase of the Show has been open to competition. However, this year it has seemed advisable to accept those lyrics which were offered along with the book.

The book and lyrics are now complete and it only remains for the latter to be listed in suitable form before they can be given out to the men who will want them as the basis of their musical efforts. The competition, opening Saturday, will run probably until the first of February, when Coach Eugene Sanger will begin his choice of the cast and chorus for the Show. As soon as the first selection of these men has been made he will turn his attention to the selection of the music for "Castles in Spain." This gives two weeks at least in which to complete those songs which the individual man will want to write. Besides this, over a week of this time will be a holiday period for most of the men in the Institute. Surely there should be a goodly number in the Tech Show office to receive the copies of the lyrics and to start in on their work along this line.

There are splendid opportunities this year for men who, perhaps, have felt that because O. B. Dennison, C. C. Peirce and Scott Putnam were writing in previous years there would be no need for their talent. Now, however, these men, who together wrote over half of the music for "Frenzied French," have graduated, leaving behind them an open space which offers a splendid opportunity to the new men to become music writers for the Show.

Definite instructions as to the details of this competition will be given out by Stage Manager G. R. Thayer when he meets the candidates next Saturday.

INFORMATION BUREAU.

The Boston Co-operative Information Bureau, with which the Institute is a co-operator, will hold its annual meeting in Huntington Hall Wednesday, at 4 P. M. The public is invited to attend this meeting. The purpose of this bureau, which is composed of the general sources of information and literature in Boston, is the exchange of all forms of knowledge among the leading institutions and private societies and companies. Among the co-operators of the Bureau are "Boston, 1915," Harvard University Library, Simmons College Library, Public Works Department, Stone & Webster, Congressional Library, Department of Agriculture, Edison Electric Company.

PROF. BLISS PERRY'S LECTURE INTERESTING

"American Traits in American Literature" the Subject—Large Audience.

As large an audience as has greeted any Lowell lecturer during the present season filled Huntington Hall yesterday, when Professor Bliss Perry gave the first lecture of his course on "American Traits in American Literature," and the auspicious opening of this course was apparent from the intense interest which was shown all during the discourse.

As is well known, Professor Perry needs no introduction to the Boston public, and proved with the preliminary remarks of his lecture that this will be one of the most interesting courses which has yet been held by the Lowell Institute. The speaker explained largely what his point of view is going to be throughout the course and told of what to him true American traits consisted. He stated that he believed there was no real national art any where which actually represents the character of a nation, for even in the works of the writers whom we consider most American it is easy to find assimilations from European authors, and often their most characteristic works are taken from prototypes in Elizabethan and nineteenth century writers.

In developing his theme he stated that to really discover the true American traits in literature we must seek in non-literary subjects. As an example the manufacture of a Japanese vase for foreign sale was mentioned which in this country would be considered "so Japanese," whereas doubtless little of true Japanese art exists in its manufacture.

In closing Professor Perry said that although American literature is today in a rather anarchistic stage of individual ideas, its development has been always measurable with that of Europe and its changes epoch making.

RUNAWAY FOR TIGERS.

Dartmouth Shows up Very Badly and Princeton Wins Easily.

Dartmouth had no chance at all against the fast Princeton hockey team at the Arena Saturday, the Tigers winning by a score of 14 to 0. This was Dartmouth's first game, and their lack of condition soon slowed them down to a very slow pace.

The first half was very uninteresting, the Princeton team not striking its pace until the last half. Then they simply let loose and scored almost at will. Only twice was the puck in Princeton territory during this period, and then it stayed there only a very few seconds. The Dartmouth goal was peppered with a fusilade of shots, and Barrett of the Green team saved his team from a much worse defeat by stopping several hard shots.

The spectacular part of the game was the playing of Baker, the Princeton rover. He repeatedly took the puck through the whole Dartmouth team for a shot at their goal. He shot four himself and was the cause of four more.

Perhaps some of you have noticed that we get four mails a day now. Congratulations to the new mail carrier, Mr. Roberts.

GOOD HOCKEY GAME AT ARENA THIS WEEK

Intercolonials Play Three Rivers—B. A. A. Play Montreal At Arena.

College hockey seems to be on the decline at the Arena this week, no games being scheduled there in which college teams are to take part. On Wednesday evening the "Three Rivers" of Quebec will line up against the Intercolonials and try to beat them, but they will have to travel some as the latter have yet to be beaten, and they do not appear to have yet reached the height of their form. Skilton is faster every game, and the forwards have been gaining confidence all the time.

Saturday evening the B. A. A. will try to show the Montreal A. A. that they came to Boston in vain and that they are not in the class with the aggregation representing the Exeter street organization. After the way that the Ottawas made, the Boston boys have lost some of their cunning or else are overtrained. They surely will have to take a brace or they will be taken into camp one of these days when they are least expecting it.

It is planned to have Tech play Princeton on or about the twentieth, and this should be a battle royal as all the dope points to the two teams being very evenly matched. Princeton won from Yale a few weeks ago by a large score, and the game with Dartmouth last Saturday night is fresh in the minds of all those who follow the sport. Tech outclassed Harvard a couple of weeks ago by a score of 4-1, and gave the Intercolonials and the B. A. A. a good run for their money. These two teams should put up the battle of the year, and the winner will, no doubt, be acclaimed the college champion, as the other teams who might have been possibilities have all "flushed in the pan." It was hoped that a game could be arranged next week between the Tech team and the Springfield, but it has not been definitely decided on account of the mid-year examination schedule.

JUN. PROM AT SOMERSET

The Junior Prom Committee, which met yesterday, decided several things of importance concerning the Prom. Poole's Orchestra, which has been used for several years, will be used this year. The affair will take place at the Somerset. The price for admission has not yet been fixed, but the committee think that it will probably be the same as in former years, five dollars. Pledge books will be issued in about a week to get the names of those who expect to attend.

TALK ON MEXICO.

Mr. Ross Turner, the well-known artist and special lecturer in the Architecture department, will give a talk on Mexico at the Technology Club tonight at 8 o'clock. This lecture will be illustrated by many color sketches and large photographs of the country. The pictures will also show some of the costumes of these picturesque people. This is the fourth smoke talk of the season and all members are privileged to bring friends.

Take off your hat to the Hockey Team.

ANNUAL MEETING OF TECHNOLOGY ALUMNAE.

Lunc's Held in Union—President Maclaurin Gives Address.

The Women's Association of the Massachusetts Institute of Technology held its annual luncheon and meeting Saturday noon in the Union, and was very well attended.

President Maclaurin of the Institute was present at the meeting, and after a very able address papers were read by some of the members. Addresses were given by Professor Richards of the Institute; by Mrs. Abel, who represented the old Institute, and who was a close friend of the late Mrs. Richards; by Miss Caroline F. Hunt, who is writing a biography of Mrs. Richards, who up to her death, last spring, was the permanent president of the organization, and by Mrs. Mary Hinman Abel of Baltimore, who is the author of a journal called "Home Economics," and who was a very close friend of Mrs. Richards.

The officers of the organization elected Saturday are as follows: President, Miss Margaret E. Dodd, who graduated in '92, Course VII, and who has been the vice-president of the association; vice-president, Mrs. Stanley McCormick of Boston, M. I. T., 1904; secretary, Mrs. Elizabeth B. Babcock; auditor, Miss Eleanor Manning, Course 4, '06.

CHARLES RIVER IMPROVEMENT.

The movement which has been carried on by the cities and towns along the Charles River to improve the stream has been agitated for a long time. Mayor Chatfield of Newton is taking the matter up and will appoint a committee from the towns to bring the matter before the Legislature. Many of these people are opposed to the dredging and maintain that the establishment of a water level at the dam in Waltham would solve the difficulty.

The Institute's new site is probably one of the things that has renewed this discussion, because this decision is one of the greatest importance in beautifying the lower end of the river.

FOUNDRY WORK.

The Wednesday and Saturday classes in Foundry Work will visit the foundry of the Blake & Knowles Pump Works on Third street, East Cambridge, Wednesday, January 10. All men meet at the office of the works at 1.45 P. M. Take East Cambridge cars at Haymarket square. Get off at Third street.

The Thursday class in Foundry Work will meet on Thursday, January 11, at the same hour and place for a similar excursion.

Battalion drill three times a week next term.

CALENDAR.

No Tech issued tomorrow, January 10th.

Wednesday, January 10.

6.00—Hockey Practice—Arena.

Thursday, January 11.

1.30—T. C. A., R. Perry Bush, D. D.—Union.

Friday, January 12.

6.00—Hockey Practice—Arena.

TUESDAY, JAN. 9, 1912

IN CHARGE OF THURSDAY ISSUE.

EDITOR—Waitt, A. H., 1914.
 Associate—Lewis, Jr., M. B., 1914.

There will be no issue of THE TECH tomorrow, on account of the fact that the Editors are going to do a little studying. If they have time there will be a paper issued Thursday morning.

THE TECH regrets to announce the resignation of Herbert W. Hall as General Manager. Mr. Hall has been connected with the paper for the past three years, and much of the success of the Anniversary Special last April was due to the large amount of advertising secured under Mr. Hall's supervision. Mr. Hall resigns to accept a lucrative business opening in Philadelphia. We wish him success in his venture.

We understand that several of the members of the English Department Instructing Staff have been in the habit of displaying a "THE TECH" for the purpose of holding the aforesaid newspaper up to ridicule. It seems to us that these men might be up to better business and have better use for their energies than to abuse a self-respecting newspaper. If these men really want something that is worth criticising let them come around to THE TECH office any evening and see some of the copy that comes in and is edited by the night editor. We do not know who these instructors are, but we can guess and guess right, and the office will be open to them or anyone else who desires to see what we have to contend with. And to make the matter worse, a good deal of this copy that they have been criticising so severely comes from the members of the Freshman class, whom they are themselves trying to teach the rudiments of the English language. We also have on hand some "Gems of literature from the office of the "Mass. Tech Official Press Agent," copies of which we would be glad to mail free of charge to any address. We think that some of these would make fine material for "class criticism" as the editors have judged them too poor for "THE TECH." We would suggest to the instructors that a good way to improve the quality of THE TECH would be to send some of their best men out to compete for positions on the staff.

Very truly yours,
 (Signed) Donald E. Bent,
 Treasurer Technique, 1912.

JUNIOR SPECIAL.

It is planned to run several of the back Political Economy Examinations in the Thursday issue, and therefore it will be imperative for every member of the Junior Class to purchase one.

AN OUNCE OF PREVENTION.

The Adolph S. Lundin scientific system of Turkish Baths is the only natural and hygienic way to prevent that on-coming cold. Established nearly twenty years ago under the Tremont Theatre. Special rates to a party of six, five dollars.

TECH TEAM LOSES.

Fast Team and Large Floor Too Much for Institute Men.

New Hampshire State College put it onto the Tech team Saturday at Durham by a score of 38 to 13. The New Hampshire floor is very large (Continued to Page 4.)

Where is the Freshman Pipe Committee?

MRS. MACLAURIN WILL BE MATRON AT DANCE.

Also Mrs. Cole and Mrs. Pender—Tickets \$1.00—Now On Sale.

The committee in charge of the Battalion Hop to be held February 16th, in Horticultural Hall, announced the following matrons for the affair: Mrs. Richard C. MacLaurin, Mrs. Edwin T. Cole and Mrs. Harold Pender.

Already a number of upperclassmen have indicated their intention to attend the dance, which is the fourth annual held by the cadet corps. It is expected that a large number of Freshmen will go, and the selection of hall and matrons leaves no doubt about the desirability of the dance. Tickets are now on sale by officers of the Battalion and will be distributed among the Freshman non-commissioned officers at the Wednesday drill. They are \$1 per person, and as announced it is planned to include refreshments at this price.

COMMUNICATION.

(We invite communications from all men in the Institute on important subjects. We take no responsibility for their sentiments and do not agree to print any that may come in, whether they are signed or not.)

To the Editor of THE TECH:

Dear Sir:—I wish to prevail upon you to publish this communication as I believe its subject is of vital importance to the student body, for it certainly is to Technique, 1912. The subject is just this: the financial responsibility of some of our organizations is evidently not realized by their members. The K. S. Society, the Architectural Society, the Exeter Club, the M. A. H. S. Club, the New York State Club and the Aero Club have become debtors to Technique, 1912, for their inserts in that book. Efforts have been made since May 1st, 1911, to the present date, excluding the summer vacation, to collect those bills, and as yet no money is forthcoming. The purpose of this article is to make an appeal to the members of those societies for fair and square business treatment. And, secondly, to inform the student body of such delinquencies in hope that their attitude toward such practices will be one of disapproval. We now have a financial committee, one whose purpose is to see that all activities under its jurisdiction meet their liabilities promptly, and I hope that in the near future that societies and clubs at the Institute will be placed under the same supervision or adopt a better business spirit.

Very truly yours,
 (Signed) Donald E. Bent,
 Treasurer Technique, 1912.

ONE PIECE HAMMER IN THE NEW MODEL

Ithaca

If you see more than one hole in a hammer you know that extra parts are fastened to the hammer whether shown or not. Our hammer is all one piece, only one hole, no toggles or stirrups attached. WE have cut out all cocking levers, bars, push rods, and hammer-stirrups and cock the gun direct from toe of hammer. OUR hammer travels less than half an inch, taking only 1-1/2 of a second to operate. STOCKS are not cut away for hammers or lock plates and are dovetailed into frame to prevent splitting and spreading.

THE speed of our lock will increase your score at traps and kills in the field; the simple scientific construction of the gun makes it practically tool-proof, and will last you a lifetime if you take care of it and a good many years if you don't.

CATALOG Free; 18 grades, \$17.75 net to \$400 list. OUR 6-1/4 lb. 20 bore is a hummer—be down-to-date and shoot one.

**COURSE X TO HAVE
NEW E. E. WORK.**

Substituted for Boiler and M. E. Drawing in Third Year.

The courses in Boiler Drawing and Mechanical Engineering Drawing of the second term of the third year have been dropped from Course X. and in their place the students will be given the same course in Electrical Engineering that is given to Course II. The drawing course is a sixty-hour course, while the electricity course is thirty exercise and thirty preparation periods.

It is expected that a change will be made in the fourth year of Course X whereby a course in Electrical Engineering Laboratory will be given in the first term of the fourth year in place of the course in Dynamo Electric Machinery, which is covered by the new third year course. In the second term of the fourth year there will be introduced a course in Problems in Chemical Engineering, given by Prof. W. K. Lewis, which will occupy the time formerly devoted to Electrical Engineering Laboratory in that term. Dr. Lewis' course will be given this year to the class of 1912 for the first time, the necessary hours being taken from thesis work.

**LAST T. C. A. MEETING
IN THIS MONTH**

R. Perry Bush of Chelsea Universalist Church Will Speak Thursday.

Thursday noon the last T. C. A. meeting of January will be addressed by Dr. R. Perry Bush. The association did not want to ask anyone to go to a meeting in the middle of his exams and yet thinks that a big crowd should come this week, especially as the whole business will not occupy more than twenty-five minutes between luncheon and 2 o'clock classes.

Dr. Bush will speak about "The Religious Man and the Sources of His Inspiration." He is pastor of the Chelsea Universalist Church and is Grand Chaplain of the Massachusetts Lodges of Masons, and also is high up in the Odd Fellows.

GLEE CLUB AT PRISON.

Interesting and Enjoyable Trip—
Mr. Stebbins Talks to Men.

It was the general opinion among the Glee Club men who went on the trip to the State Prison for the Sunday morning service that a very pleasant and interesting three hours had been spent.

Directly upon their arrival they were taken into the chapel, where the service was just about to start. This proved to be most enjoyable for two reasons: Mr. Stebbins, the Chaplain, who, it will be remembered, talked at the Union quite recently, conducted it with his usual earnestness, and the choir and orchestra, composed of the prisoners, took part. The service was brief and mostly musical, as is generally the case, the Glee Club singing most of the selections.

Most interesting of all, however, was the talk which Mr. Stebbins gave to the entire club after the service was over. He told of the human side of the prisoners' lives and gave the men an excellent idea of the great good that is being accomplished for bringing about their reformation, which is really lasting.

It is expected that another trip will be made on some holiday during the spring, when a somewhat larger program will be given and of a different nature.
